ABOUT NTP

Network in Thane by People Living with HIV and AIDS (NTP+) is registered under the Society Registration Act in January 2005 as a non-profit community based organization of people living with HIV & AIDS. NTP+ is the District Level Network of, for and by the People Living with HIV in Thane district.

The organization aims to improve the quality of life of people living with HIV in Thane and to provide sense of belongingness and togetherness to people living with HIV.

The membership is open to all people living with HIV in the jurisdiction of the District of Thane, irrespective of gender, caste, religion etc. Confidentiality of members is ensured by NTP+.

NTP+ is affiliated by Network of Maharashtra by People Living with HIV and AIDS (NMP+)

NTP+ OBJECTIVES

- ✓ To provide access to information to people living with HIV.
- ✓ To promote social acceptance of people living with HIV and their families to reduce stigma and discrimination.
- ✓ To provide opportunities for Networking for people living with HIV.
- ✓ To raise awareness among people emphasizing the particular vulnerability of Women to HIV.

Network in Thane by PLHIV (NTP+)
Babasaheb President
Imbonawane Treasurer
Inde Kumareel Gen. Secretary

- ✓ To facilitate and improve access to treatment for people living with HIV.
- ✓ To promote and protect Human rights of people living with HIV.
- ✓ To promote Greater involvement of People Living with HIV (GIPA) at all levels of decision-making.
- ✓ To promote opportunities for skill building of its members, in order to achieve objectives of the Organization.

OBJECTIVE:

- Prevent HIV +VE children from dropping out of school, and ensure their education.
- Help HIV +VE children in the form of books, other study materials, uniforms, clothes, shoes etc.
- Promote HIV +VE children's emotional and intellectual development.
- Support school improvement, including training in modern teaching methods and up-to-date Educational materials.
- Ensure their Right to Education and Development.

To

Colgate- Palmolive (India) Ltd.

We are extremely thankful to you & your staff for your kind support in helping us to bring about positive changes in the life of children infected & affected with HIV. With your support and Guidance tremendous positive changes have happened in the children's health, education & other skills.

We always feel proud to say that we have Colgate Palmolive (India) Ltd as a corporate partner in social development sector and today we are able to support 83 children and help in improving the Quality of their life.

"Positive Step"- Project:

It is an Honor to state that our partnership is contributing towards the national responsibility & becoming the role model for other corporate sectors as well as staff.

We are also thankful to Colgate Company for starting the Mentorship Program for the senior children of the program to guide them in their path of Career development. In all 9 children were selected for the Mentorship Program.

NTP+ is highly thankful to the Colgate Palmolive (India) Ltd & its staff for actively participating & contributing their valuable time to bring effectiveness in Positive Step program

Thanking you

Executive Summary

Colgate-Palmolive (India) Ltd. and Network in Thane by people living with HIV/AIDS(NTP+) has been supporting the education and monthly Nutrition of 75 children and Education of 7 children from Thane District through Sponsorship program "A Positive Step" since 2008. These children are either single or double orphan and are living with HIV since birth.

There are 8 students in primary (class 1-4), 41 in secondary (class 5-10), 15 in higher secondary (class 11-12), 11 are pursuing Degree (2 have completed Degree), 2 are pursuing Masters (1 has completed Masters) and 2 children are doing professional course. Out of these 82 children 75 of them collect their monthly Nutrition kit from Network in Thane by PLHIV(NTP+) office at Kalyan every month and Education support is provided to these children along with other 7 HIV affected children half yearly.

Other than Nutrition and Education support Parents/Caretakers and Children's meetings conducted at NTP+ Office, help in the grooming and Capacity building of these children. by conducting workshops like spoken English, Mathematics, Clay craft and Drawings with these children. Higher

secondary children are provided with Career guidance through the Mentorship program, another initiative by the company to help the children to choose a carrier according to their skills and abilities.

Volunteer involvement and one to one Mentorship meetings could not be conducted in this quarter due to Covid-19 restrictions imposed by the Central and State Governments in India. However virtual meetings were conducted and guidance was provided to the children.

World Aids day is celebrated with the sponsors (employees) at the company premises on 1st December every year. This year World Aids day could not be celebrated in person due to Covid restrictions. However, it was celebrated virtually as children performed in different activities at NTP+ office. These activities were recorded and shared with the company sponsors during World Aids day. Back to school hampers were also provided to every child during the month of December. The children's wishes were fulfilled by their sponsors as per the wish tree provided by the children, a procedure followed by NTP+ and Colgate company every World Aids day.

Academics

Every child enrolled in the Positive Step program attends school either Public or Private for Education. These children come from poor families and many of them cannot afford education in Private or English medium schools. Due to Health-related issues they join schools near their area of residence. Their medium of education is usually Marathi or Hindi. During Covid-19 pandemic they participated in online education and since Feb'22 they have started to attend school regularly after the State Governments new guidelines came in for Government schools. However, few of our children were deprived of online education during the Covid pandemic as their family could not afford smart phones for online education.

Monitoring Health.

As these children are born with HIV they face many health-related issues due to a weak immune system and need to monitor their health every month.

[Signature] Gen. Secretary

These children have to follow strict treatment regime daily and have to meet their doctors at Government treatment centers every month for their monthly medicines. Their weight and height are checked on monthly basis. CD4 count is checked on half yearly basis and their viral load is checked on yearly basis. Apart from this if they have any opportunistic infections they are immediately put on medication and taken care of. Follow up of their treatment adherence and health progress is monitored by the Staff of NTP+ from the doctors at the treatment centers during routine hospital visits by them. The nutrition support from Colgate company helps them to maintain good health and increase their immune system, preventing them from other opportunistic infections.

During Covid-19, as precautionary measures Colgate company had provided these children with hand sanitizers, hand wash, soap and face mask. The face mask has been made compulsory for them and included in their monthly Nutrition kit by the company.

Internal Health Assessment

No Of Children	CD4 > 350	CD4 < 350	Viral Load > 1000	Viral Load < 1000
75	6	69	64	11

Note:- CD4 count above 350 is good.

Viral load below 1000 is good.

Education Updates

In the year 2021 children had to participate on online Education as there was no offline Education due to shut down of Education Institutions for the children due to Covid restrictions. The institutions were started on 25th February 2022 and the children were happy to start offline Education again and meet their friends and teachers after a gap of 22 months. The chart below shows the number of children in different sections during the FY-2021-2022

Network In Thane by PLHIV (NTP+)

Emmanuel Treasurer
Peter Emmanuel Gen. Secretary

Total No. of children-FY 2021-2022		82
Gender	Male	39
	Female	43
Standard status	Primary	8
	Secondary	41
	High Secondary	16
	Degree	12
	Masters	3
	Professional Course	2

Nutrition support by the Colgate company under the "Positive Step" program has helped to increase the percentage of attendance of these children at school as this support is helpful in maintaining good health and keeping away Opportunistic infections due to HIV infection. This helps in improving the quality of life of these children.

Laique M Khan, an orphan, living with HIV since birth was introduced to the "Positive Step" program in 2014. With little support from his aunt living in the slums of Barkya Compound at Bhiwandi he grew up with Education from a nearby Government school in Urdu medium. He was put on Anti-Retroviral Treatment (ART) by the doctors at Thane Civil hospital when he was infected with TB in the year 2012. During his treatment he was introduced to NTP+ by his aunt and after approval from Colgate company was introduced in the program for Education and Nutrition support. He was in the 8th standard then. With frequent follow

up sessions and meetings at NTP+ office Laique gained the confidence to look forward in life and Adhere to his treatment. With the help of the Guidance received through the Mentorship program initiated by the company for career Guidance he successfully completed his Bachelor of Business Administration in the year 2021 and started working as a call center executive for a firm at Pune to support his aunt. He now resides at Pune at his cousin's place and is employed since the last 8 months. He is thankful to Colgate company for the Education and Nutrition support for the last 8 years and helping in his overall development.
